

**OKC Fairgrounds Operating Plan for All Events**  
**thru December 31, 2020**  
**(updated: September 9, 2020)**

The Nation, the State of Oklahoma, and the City of Oklahoma City are under emergency orders due to the COVID-19 pandemic including a city-wide mask ordinance implemented by the City of Oklahoma City.

Oklahoma State Fair, Inc. (OSF) which manages the OKC Fairgrounds and its promoters/licensees are subject to all government issued health and safety regulations, guidelines, ordinances and/or emergency orders both now and in the future. This may result in future modifications, postponements, rescheduling or cancellation of any ongoing event(s) or future event(s).

The complete current emergency order can be found [here](#).

While continuing to be open for modified business operations, OSF is conscious of the issue of COVID-19 community spread and “hot spot events” and with those thoughts in mind, OSF has adopted the requirements of the mask ordinance currently in place for Oklahoma City for all events occurring at the property thru December 31, 2020.

Masks will be required for all individuals attending, working or exhibiting at any indoor facility at the OKC Fairgrounds. In addition, specific social distancing practices will be in place for all shows including their customers and exhibitors.

**Wash your hands frequently; always wear your mask and  
practice social distancing at all times!**
